

Montessori accreditation

Hopes and Dreams Nursery School in Islington, London, has been re-accredited by the Montessori Evaluation and Accreditation Board (MEAB) - just one of 22 Montessori schools to be re-accredited recently. The update is now valid until December 2021.

The MEAB found that 'the Montessori ethos is evident in all aspects of this exceptionally well-managed nursery school' and praised the 'outstanding range of high quality resources'.

MD Susan Bingham said, "We are committed to delivering high standards of care and allowing children to excel within the Montessori education framework. We're delighted to be re-accredited and to have our efforts across the school recognised within the report."
